## VISION OF EDUCATION

We, the Mary Ward Women in the education ministry, aim at forming fearless and vibrant citizens who are able to face the challenges of life.

Believing that education is a powerful agent of social transformation, we, the Mary Ward women move towards the empowerment of women and formation of students inculcating in them a sense of justice, religious tolerance, compassion and love.

Making them aware of the value system of the world in which they live in, they are enabled to analyse it critically and make responsible decisions for themselves.

They are led to appreciate God's creation, value life, human dignity and potential and thus to pursue fullness of life.
